Mr. HOYER. Madam Speaker, I ask unanimous consent that it may be in order on Thursday, April 17, for the Speaker to declare a recess subject to the call of the Chair for the purpose of receiving in this Chamber former Members of Congress.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

CONGRATULATIONS TO MORRIS  
BLACK AND SONS

(Mr. DENT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DENT. Madam Speaker, I rise today to honor the 100th anniversary of the Morris Black and Sons, a renowned interior design business located within my district.

Founded in 1908 by company namesake Morris Black, the business began as a horse and wagon team supplying contractors with construction needs including pipe, bricks, sand, cement and other masonry products. The company quickly grew as the Lehigh Valley became an industrial center, and by 1928, operated warehouses in Allentown and Bethlehem.

In the 1930s, Morris was joined by his sons, Benjamin and Samuel in running the family business. Under this leadership, Morris Black continued to develop, and in 1943, became one of the first companies in the Nation to incorporate an insulation subcontracting business.

A third generation of the Black family became associated with the company in the 1970s when Morris Black and Sons entered a period of rapid change. In the mid 1970s the company saw a growing interest in do-it-yourself remodeling and design. With the do-it-yourself trend on the horizon, Morris Black and Sons opened one of the first home design centers that marketed building products directly to active homeowners in 1976.

Over time, the company has continued to expand, opening its first satellite location in 1999 and the second in 2000, and has developed a strong reputation for quality throughout eastern Pennsylvania.

This Saturday the family marks its 100th anniversary. I wish the entire Morris Black family and company a healthy congratulations.

CONGRATULATING ISRAEL ON ITS  
60TH ANNIVERSARY

(Mr. WELDON of Florida asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WELDON of Florida. Madam Speaker, it is my honor to rise in celebration of the coming 60th anniversary of the creation of the Nation of Israel next month. I have long been a supporter of Israel, and I am proud of the strong bonds that unite Israel with our own Nation.

Not only is Israel one of our foremost allies in the current fight against terrorism, but they have been a long partner in peace, in commerce and in the values of liberty. Israel, like America, rose to prominence through the hard work of immigrants, and Israel remains the best model of democracy, religious freedom and peaceful coexistence in a very hostile location in the world. The contributions of Israeli ingenuity and Israeli technology are making an impact in the Middle East and throughout the world.

And today, with Iran threatening to destroy Israel and developing nuclear technologies and ballistic missile technologies, it's more important than ever that people of good will, Jews, Christians and of all faiths rise up in support of Israel and acknowledge Israel's coming 60 birthday.

Mazel Tov, Israel.

WHAT IS AT STAKE

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Madam Speaker, yesterday, General David Petraeus and Ambassador Ryan Crocker presented their reports to Congress. Their testimonies were professional, fact-driven accounts, and I am extremely grateful for their service.

During the hearing, I summarized al Qaeda spokesman Zawahiri, who has outlined his plan for Iraq. The first

stage, expel the Americans from Iraq. The second stage, establish authority in Iraq. The third stage, extend the jihad wave to the secular nations neighboring Iraq. And the fourth stage, the clash with Israel and extermination of the people of Israel.

Ambassador Crocker acknowledged these goals, but said al Qaeda may not follow this timeline. They may try to attack America as soon as possible.

The Ambassador also agreed al Qaeda would not be satisfied with simply the destruction of the people of Israel.

We should remember what is at stake in Iraq. A failure in Iraq, a defeat at the hands of these extremists, would mean a failed state, a breeding ground for extremists. It is the scenario we saw in Afghanistan prior to 9/11.

In conclusion, God bless our troops, and we will never forget September the 11th.

RESEARCH AND DEVELOPMENT

(Mr. SMITH of Nebraska asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Nebraska. Madam Speaker, I rise today to call on the House of Representatives to pass a permanent research and development tax credit. We are the strongest Nation on Earth, in large part because of the innovation inspired through research and development.

Throughout our history, America has led the way thanks to our innovators and entrepreneurs. Their contributions to our society have led us to a new era, but we cannot rest on these laurels.

Even now, people in Nebraska and throughout our country are looking beyond the horizon for new ways to strengthen and grow our small, rural communities. We owe it to them to do everything in our power to foster these new ideas.

We live in a world with unlimited innovation, and I look forward to seeing what the future will bring from further research and development.

I urge the House leadership to bring H.R. 2138, the Investment in America Act, to the floor as soon as possible.

RESEARCH AND DEVELOPMENT

(Mr. SALI asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SALI. Madam Speaker, continuing on with the remarks that were just made, many U.S. companies are making plans of where they will spend their research and development budgets for the next 3 to 5 years. Unfortunately, this Congress has made it increasingly difficult for these companies to invest those R&D dollars with the kind of careful planning their needs demand.

High-tech companies are sending their R&D jobs abroad to countries that recognize that permanent R&D
